

WARHAMMER AGE OF SIGMAR

BATTLE OF THE SCROLLS

There are two main steps in the process of playing a game of Age of Sigmar using these Army Building Guidelines: making your army list, and deploying your force for battle.

BUILDING AN ARMY LIST

Your army list is the selection of Warscrolls that you bring with you to the event. It is from these Warscrolls that you will select your force when deploying for battle. When selecting your army list use the following guidelines:

- Select between 6-10 Warscrolls. You may only select Warscrolls from one of the four major forces: Chaos, Order, Destruction and Death.
- You may select Formations. Each unit within the Formation counts towards your 10 Warscroll cap.
- You may include up to 3 Warscrolls with the keyword 'Hero' and 3 Warscrolls with the keyword 'Monster' in them. Warscrolls that include both keywords count towards both caps.
- No Warscroll may include more than 25 wounds. Warscrolls that state a bonus for including a certain number of models may exceed 25 and may instead include up to the highest named number plus 5 wounds (for example a Chaos force may include up to 35 Skaven Giant Rats in a single Warscroll since they receive a bonus at 30).
- Warscrolls that include the 'Hero' or 'Monster' keyword(s) may only include between 1-12 wounds.

- You may select no more than two of any one Warscroll type – unless a formation dictates otherwise. You may include no more than one of any named character.

DEPLOYING YOUR FORCE FOR BATTLE

Once you have your Army List assembled you will deploy part of it to play each game. Any un-deployed Warscrolls are kept in 'Reserve'. Deploy each game as normal with the following additional rules:

- You must deploy between 4-7 Warscrolls.
- You may deploy Warscrolls totaling no more than 80 Wounds.
- Any time that you would be able to bring in additional troops, like through a Reserve or Summoning rule for example, they may only be selected from your un-deployed Reserves.
- Sudden Death victory conditions are calculated using total wounds deployed, not models deployed.

HAVE FUN

Remember, this event is for fun! There are some silly rules in the game, and not everyone will know what they are doing yet. There are likely some silly combinations that you could bring that would make it no fun for your opponents. I would ask players to bear in mind that we are all here to have fun, get our feet wet, and win some fun prizes!
